With respect to any billing dispute to which section "Monitoring Usage - Annual Meter Readings" of this regulation does not apply, consumer accounts shall be considered to be current while the dispute is pending as long as a consumer continues to make undisputed payments and stays current on subsequent bills.

METER READING

Each consumer receiving service will read his/her meter by the twentieth (20th) of each month and report such to Cooperative no later than the ninth (9th) of the following month. Failure to report a valid reading will result in an estimated bill. I

MONITORING USAGE - ANNUAL METER READINGS

If the consumer is not satisfied with the findings, an energy audit will be conducted to determine what the consumption should have been based on national averages, number of people in household and available appliances. If knowledge of a serious situation requires more expeditious notice, the Cooperative shall notify the consumer by the most expedient means available. If a consumer's usage is unduly high and the deviation is not otherwise explained, the Cooperative shall test the consumer's meter to determine whether the meter shows an average error greater than two percent (2%) fast or slow. In addition to the annual monitoring, the Cooperative will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or consumer inquiry. If, due to reasons beyond the Cooperative's control, they are unable to read a meter, the date and time the attempt was made, if applicable, and the reason the Cooperative was unable to read the meter shall be noted.
